

STAFF NEWS

Our theme for this year is "Pay It Forward" which is exactly what we are doing as a team. Our Team strive to develop these young people for a better future. We might not be there in their lives forever, but we instil values that can take them a very long way i.e respect, self-determination and honesty.

We also build their self esteem and confidence through our activities and our therapeutic programmes. As a team we ensure that each and every young person in our residential care is holistically cared for in terms of their physical, emotional, social, cognitive and spiritual needs.

Our staff attend developmental programmes through NACCW. We also have regular in-service training and team building. We celebrate birthdays, mother's day and father's day and important religious festivals together in order to keep our team spirit alive.

The effort and commitment of all who work at St. Theresa's Children's Home will stand our children in good stead for the future.
